

Appl. No. 10/676,997  
Amdt. Dated February 13, 2006  
Response to Restriction Requirement of January 13, 2006

**REMARKS**

The examiner found that a restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 12-36, drawn to a bent elongated perimeter light and a system for mounting perimeter lights to a body having straight and curved surfaces; and
- II. Claims 37-40, drawn to an apparatus for bending a perimeter light.

Applicants do not agree with the examiner's findings, but to provide a complete response elect claims 12-36 to be examined. Claims 37-40 have been withdrawn and applicants reserve the right to pursue these claims in a divisional or continuation application.

Applicant respectfully requests that a timely notice of allowance be issued in this case.

Respectfully submitted,

February 13, 2006
